Director of Public Works

### HARBOR-UCLA SURGERY/EMERGENCY REPLACEMENT PROJECT

I am pleased to inform you that on July 26, 2013, the \$323 million Harbor-UCLA Surgery/Emergency Replacement project reached substantial completion and received approval from the Office of Statewide Health Planning and Development for staffing and stocking. The project was completed slightly ahead of the Board-approved schedule and approximately \$10 million below budget.

As you know, the Harbor-UCLA Surgery/Emergency Replacement project consisted of construction of a 197,000-square-foot building to house 16 new fully integrated operating rooms with 48 pre- and postoperation beds, a new emergency/trauma center with 7 level-one trauma bays and 78 exam rooms, central sterile processing, upgrades to the central plant, a helistop, and a 544-space parking structure. This project will strengthen the County's trauma network and increase patient throughput in the emergency and surgery departments. Attached for your information are photographs of the completed building.

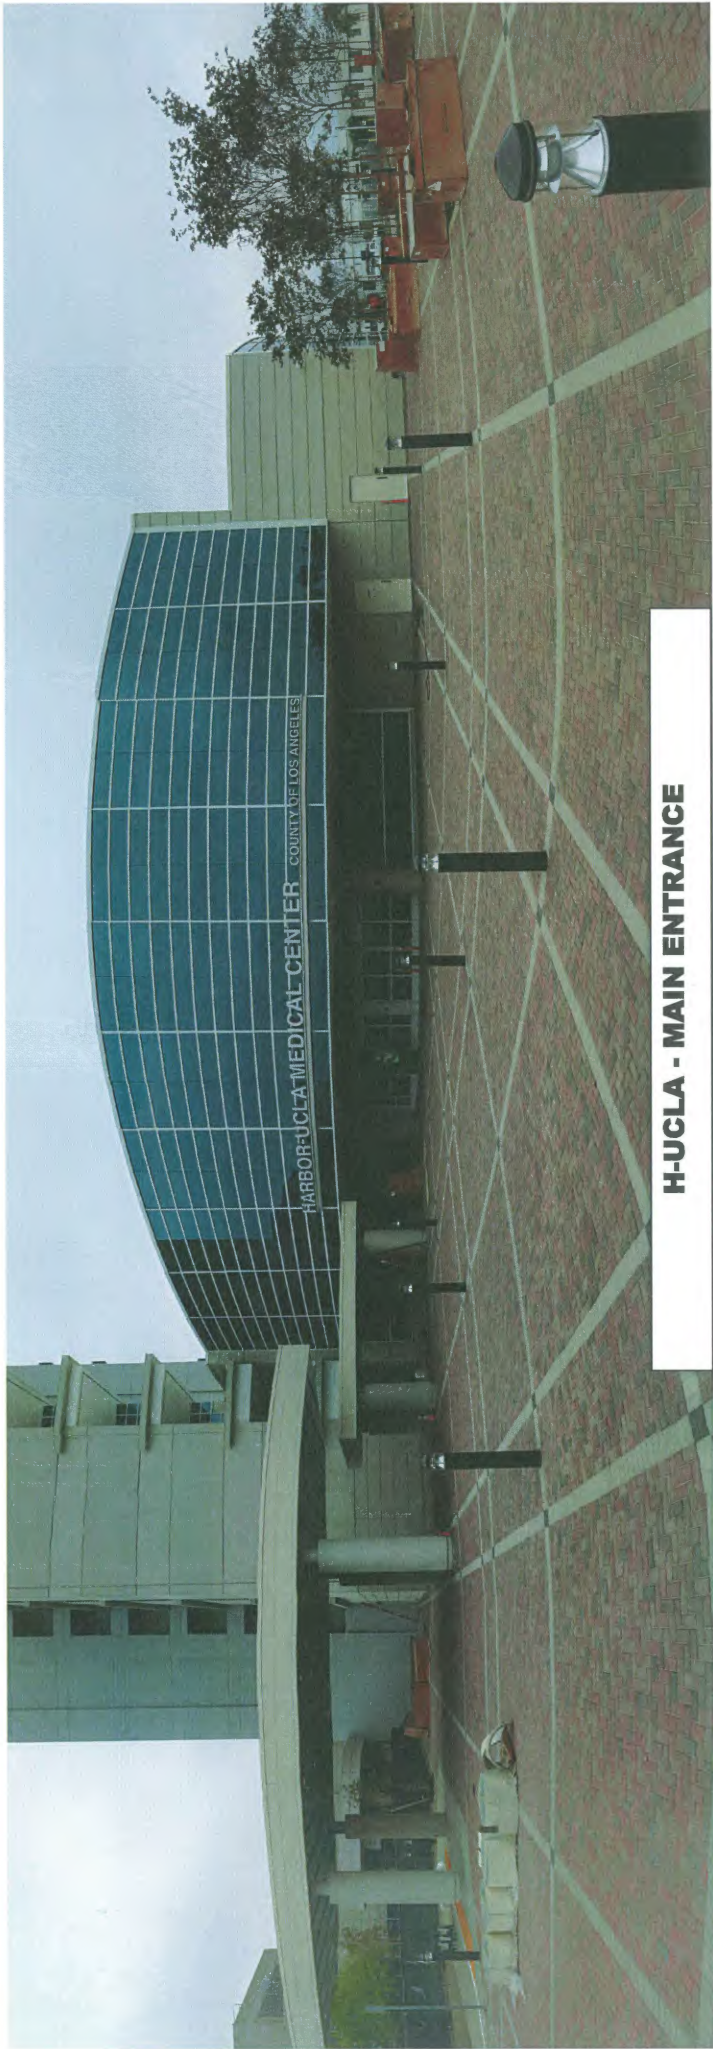

If you have any questions or need additional information, please call me or your staff may contact David Howard at (626) 300-2300.
